COURT ACTS IN MOYER CASE

ISSUES A WRIT OF HABEAS CORPUS RETURNABLE ON MARCH 1.

GRAND JURY TO MEET AT CALDWELL TODAY ADJUTANT GENERAL WELLS TALKS.

BOISE, Idaho, Feb. 23.—Harry Orchard [illegible] Governor Steunenberg is convalescing with [illegible] Doctor Hyslop, prison physician, says he has a temperature of 99, but his condition is not critical.

BOISE, Idaho, Feb. 23.—The supreme court this afternoon issued a writ of habeas corpus in the cases of Moyer, Haywood and Pettibone accused of the murder of ex-Governor Steunenberg. The writ is made returnable March 1, on which date a return will be made and a time set for hearing.

The application for a writ of habeas corpus in the case of Moyer, Haywood and Pettibone is based on the extradition statute of the United States. That is the real point though many points of the constitution of the state and the constitution of the United States are cited. The extradition statute provides for the extradition of persons who, having committed an offense in one state, flee from its jurisdiction into another. It is claimed that there is no provision whatever under which men can be extradited for conspiring in one state for commission of an offense in another and the defense in this case is proceeding on that theory.

Case May Go Higher.

It is the intention to carry the point to the United States supreme court on a writ of error if the state supreme court refuses to release the prisoners on the writ. It is not expected by the defense that the state court will release them, but it is desired to save the point. It is stated by the defense that if anticipates the state would rearrest the men if they were released and proceed to trial with them, but the defense will save this point throughout the record. Mr. Richardson giving it as his belief that the supreme court at Washington will hold the extradition was illegal.

A Fine Legal Point.

Under the laws of Idaho an accessory before the fact is made a principal and the prosecution claims there can be no doubt that the men can be held. It is admitted by attorneys generally that the point is a nice one. In this case the state has charged the men with killing the victim of the explosion and on that charge they were extradited. If they should be released at any time before trial it would be another question to determine their status. The state would immedi-

GARFIELD STILL ON WITNESS STAND

IS SUBJECTED TO SEVERE CROSS-EXAMINATION BY ATTORNEYS FOR CHICAGO PACKERS.

CHICAGO, Feb. 23.—Commissioner of Corporations Garfield was subjected to a severe cross-examination in the packers' case today and was still on the stand when court adjourned. During the examination he admitted that he had turned over to the department of justice some information which had been secured during the investigation of the beef industry, but asserted that it was nothing which had any direct bearing on the case now on trial. The information given the department of justice, he said, had been received by the agents of the department from all over the country claiming to have information of the violation of the law by the defendants. No information obtained from the packers was given to the department of justice.

PHILIPPINE BILL READY TO REPORT

SENATE COMMITTEE CONCLUDES HEARING ON TARIFF BILL AND WILL SUBMIT IT SOON.

WASHINGTON, Feb. 23.—The senate committee on the Philippines today concluded its hearing on the Philippine tariff bill, which has been in progress for the past month, and Senator Lodge, chairman of the committee, said that he would probably call a meeting of the committee next Tuesday to decide on a report.

There were three witnesses before the committee today. They were C. T. Smith of Michigan, who opposed the bill in the interest of the sugar makers; George B. Rea of Manila and W. C. Welborn, director of agriculture for the Philippines, both of whom advocated the passage of the reduction bill. Mr. Welborn said that he had changed the opinion advanced by him that the passage of the bill would have the effect of bring practically all of the Philippine sugar to the United States. He now believed that even with the passing bill a few, much of the sugar produced in the islands would continue to go to China.

JOHANN HOCH PAYS PENALTY

CONVICTED MURDERER AND CONFESSED BIGAMIST IS HANGED AT CHICAGO.

FACED DEATH CALMLY ATTORNEYS WILL TAKE CASE TO THE SUPREME COURT.

CHICAGO, Feb. 23.—Johann Hoch, convicted murderer, confessed bigamist, [illegible] died on the scaffold in the county jail today for poisoning his wife, Marie Walker. He [illegible] he would take it which the final motion for a stay of execution was filed in the criminal court. The motion was based on the ground that the indictment upon which Judge Chetlain had sentenced Hoch was invalid because the grand jury which returned it was improperly constituted. The motion was argued before Judge Chetlain yesterday afternoon and he took the matter under advisement. This morning he announced that the motion was overruled and Hoch was hanged.

JOHANN HOCH.

came calmly and without fear. He stood on the scaffold beneath the dangling noose in the attitude and with the courage of a soldier who realizes to the full that death is his portion, but is still unafraid. He died with a prayer on his lips for the officers of the law who took his life, and save for the word "good-by," his last utterance was an assertion that he was innocent of the crime for which he paid the extreme penalty of the law.

Will Not Drop Case.

The last scene in the career of Hoch came at 1:24 in the afternoon while his attorneys were still making desperate efforts for a little more time on earth for him. His death, the lawyers say, has not ended the appeal that was made in his behalf and, although the man himself is dead, they promise to carry the case to the supreme court of the United States and if it is there decided that he was unlawfully hanged, proceedings will be commenced against the officers of the law who officiated at the execution.

As soon as it was known that the application for the writ of habeas cor-

(Continued on Page 2)

FLOOD DOES DAMAGE

Sterling, Ill., Suffers as Result of Ice Gorge in Rock River.

STERLING, Ill., Feb. 23.—An ice gorge in Rock river raised the water ten feet in a few minutes today, doing damage estimated at $150,000. Part of the new steel wagon bridge was carried out and two other bridges are threatened between Sterling and Rock Falls. A portion of the Chicago & Northwestern track west of Sterling was washed out. The lowlands west of Sterling are flooded and many families in Sterling were taken from the top stories of their homes in boats. The city gas and electric plants are shut down and water is standing in the boiler rooms of several plants. Over 1,000 men are idle as the result of the enforced shutdowns.

HIGHEST RAILROAD BRIDGE IN WORLD

FROM ONE COUNTY ELECTRIC LINE TO SPAN FAMOUS ROYAL GORGE NEAR CANON CITY.

DENVER, Feb. 23.—The highest railroad bridge in the world will be built across the top of the famous Royal Gorge near Canon City. It will be 2,800 feet above the hanging bridge of the Denver & Rio Grande railroad—so high in the air that the roaring of the Arkansas river below will not be heard, and the powerful stream will look like a thread of silver running between the frowning cliffs.

The structure will be erected in connection with plans of F. S. Granger of San Jose, Cal., to establish an interurban system of electric railways in Fremont county from Canon City to Florence and the top of the Royal Gorge. Construction will begin March 1 and it is claimed the line to the gorge will be in operation sometime this summer.

The Pike's Peak road is now the highest and most wonderful railroad in the world, but the proposed line with its thrilling ride across the gorge will rival even the wonderful cog road. The cost of the interurban system will be $500,000 and the suspension bridge spanning the chasm $100,000 more.

It is six miles from Canon City to the highest point the electric line will reach, but a road ten miles in length will be built for the electric cars.

SITUATION A GRAVE ONE

MINERS' DEMANDS CONSIDERED BY FULL SCALE COMMITTEE LAST NIGHT.

ARE SAID TO HAVE BEEN ACCEPTABLE JOINT BOARDS TO MEET MONDAY.

NEW YORK, Feb. 23.—The full scale committee of the United Mine Workers, consisting of 38 members, [illegible] President Tom L. Lewis and Vice President Duncan McDonald, District Secretary-Treasurer Wilkinson, District Presidents Dettrey, Nesbit and Dempsey and Harvey and the committeemen representing the boards of the four districts in the anthracite region, met in this city today. The meeting was held behind closed doors and no information of importance appeared to have leaked out. The committee is scattered now, but will be busy [illegible] the past week and presented their demands to President Mitchell for approval today.

It was understood that President Mitchell should be able to notify the operators that a meeting with them was desired. His action, therefore, in first calling a meeting of the scale committee to consider the propositions has given rise to reports that the miners' demands are such as to make the situation a grave one.

The meeting of the scale committee lasted until nearly midnight. It was stated that the full committee indorsed the demands of the miners' committee of seven and it was declared that the anthracite workers will stand by the demands and suggestions. It was decided to send a copy of the conclusions to Mr. Baer, the head of the operators' committee, tonight.

There will probably be a meeting of the joint committees on Monday.

NO CAUSE FOR APPREHENSION

MINISTER TO CHINA SAYS SITUATION IS NOT AS BAD AS REPORTED.

GOVERNMENT APPRECIATES IMPORTANCE OF PREVENTING HOSTILITIES OF FOREIGNERS.

WASHINGTON, Feb. 23.—The secretary of state has received a telegram from Mr. Rockhill, minister to China, stating that he and his colleagues see no cause for undue apprehension concerning the situation in China. While they consider caution and watchfulness always necessary, they believe the published reports of uneasiness to be without cause. Missionary troubles are not more frequent than usual, it is said, and are due to local causes.

Mr. Rockhill says the Chinese government appreciates the importance of preventing hostilities to foreigners; that it has recently been cautioned by Japan in this respect, and has declared its determination to insure their safety under all circumstances. The dispatch adds that while the boycott may continue with local friction, nothing more serious is anticipated by those on the ground. A pronounced general feeling of determination is noted on the part of the Chinese to secure complete economic exploitation of their empire.

GOVERNOR DECLINES TO PARDON PETERS.

DENVER, Feb. 23.—Governor McDonald today refused to grant a pardon for commutation of sentence in the case of Charles O. Peters, under sentence of death for murdering Mrs. Amanda Youngblood in this city. The request was made of the governor in person by a friend of Peters' family from Ohio.

MANY LIVES LOST

Six Hundred Houses Destroyed by Fire Thirty Are Injured Dead.

LONDON, Feb. 24.—The correspondent of the Daily Telegraph at Tokio says that fire in the town of Taira, 60 miles southeast of Fukushima, destroyed 300 houses and caused the death of 37 persons.

HEPBURN BILL IS NOT AMENDED

SENATE COMMITTEE AGREES TO REPORT MEASURE AS IT STANDS.

TILLMAN IS CHOSEN AS SPOKESMAN, A PRECEDENT THUS BEING ESTABLISHED.

WASHINGTON, Feb. 23.—By a vote of 8 to 5 the senate committee on interstate commerce today agreed to report the Hepburn rate bill without amendment, but the resolution [illegible] to the members of the committee freedom of action [illegible] as may be offered in the senate.

By a vote of 5 to 3 Republican members of the committee voted against reporting the bill. This action is taken to establish a precedent in what is regarded as a Republican senate committee has given to a Democrat control of an important measure passed by a Republican house and to be pushed by a Republican president.

Senators Gallinger and Carmack were absent and their votes were recorded one on the main proposition.

The Resolution.

The resolution follows:

"Resolved, That the interstate commerce committee report favorably house bill 12,987 as it passed the house of representatives, it being understood that members of the committee shall be

SENATOR TILLMAN.

right to vote as they choose on amendments or to offer amendments in the senate on the consideration of the bill."

Senator Dolliver offered the first part of the resolution and Senator Aldrich made a motion to amend by adding the restrictions concerning amendments. The Aldrich motion prevailed, the affirmative votes being Elkins, Aldrich, Kean, Foraker, Crane, Foster, Tillman and Newlands. The negative votes were Dolliver, Clapp and McLaurin. After the meeting, however, Senator McLaurin said he had intended to vote for the change, and a change was made in the committee record.

How They Voted.

The vote for the resolution as amended was as follows: affirmative—Tillman, Dolliver, Clapp, Tillman, McLaurin, Carmack, Foster and Newlands; negative—Elkins, Aldrich, Kean, Foraker and Crane.

Senator Aldrich then moved that the bill be reported by Chairman Elkins but Senator Dolliver and Senator Tillman protested that some friend of the measure should make the report and Senator Aldrich amended his motion, providing that the report should be made by Senator Tillman. He said that the Democratic members furnished the majority of the votes for the bill and that it was proper to have the minority "father it." This was taken by Senators Dolliver and Clapp as an effort to humiliate them, but they remained silent.

Tillman Honored.

Chairman Elkins suggested that the report should be made by Senator Dolliver, who had been one of the men who helped draft the Hepburn bill. Only Senator Clapp supported the suggestion, which had been made informally.

A vote was then taken on the question of who should report the bill, resulting as follows: For Senator Tillman—Aldrich, Kean, Foraker, Crane and McLaurin. For Senator Dolliver—Elkins, Clapp and Newlands. Not voting—Dolliver, Tillman and Foster.

KOREANS ARE OPPRESSED

ARCHDEACON JEFFRIES SAYS THEY ARE BEING PERSECUTED BY JAPANESE.

CHARGES MIKADO'S SUBJECTS WITH GRAVE CRIMES AND DECLARES PEOPLE ARE SLAVES.

SAN FRANCISCO, Feb. 23.—Archdeacon W. W. Jeffries, an Episcopal minister who has just returned from the orient, says that the Koreans are being greatly oppressed by the victorious Japanese.

"When a Korean objects to the confiscation of his property," the minister says, "he is falsely charged with being a spy and is subsequently shot or hanged the same day."

The executions in some cases, Dr. Jeffries says, are of a horrible nature and he has brought with him a number of photographs to prove the truth of his assertions. He says that even women are not immune and that it is no uncommon sight to see them suspended by the neck on one of the streets of a Korean city. The bodies, he says, are allowed to hang in the streets for days as a warning to the inhabitants.

"The Koreans are reduced to a state of abject slavery and have been robbed of everything they possessed. The Korean emperor lives in terror of the Japanese and has frequently called upon our legation guard to watch over him during the night. He charges the Japanese with the murder of his wife and fears that he will meet the same fate."

INQUIRY IS SANCTIONED

HOUSE AGREES TO A RESOLUTION PROVIDING FOR INVESTIGATING RAILROADS.

ALLEGED RESTRAINT OF TRADE TO BE PROBED—MUSSEL SHOALS BILL PASSES.

WASHINGTON, Feb. 23.—Preceded by a debate which indicated no hesitancy, but rather a relish in taking action against alleged railroad combinations, the house agreed without opposition today to the Tillman-Gillespie resolution directing the Interstate Commerce commission to make an immediate inquiry and report regarding alleged restraints of trade on the part of certain railroads in the handling of coal and oil. The resolution was not in the form in which it passed the senate and will go back to that body for its second action. The debate occupied an hour and consisted of a succession of speeches in denunciation of alleged practices and indorsement of the proposed investigation.

The only note of apprehension was from Mr. Manff of Illinois, who called attention to the law which exempts from prosecution persons who may testify in the inquiry. In this manner, he said the guilty officials, if any such were found, might be able to escape punishment. It was explained that the resolution in no way changed existing laws on this point and the belief was expressed that in making the inquiry the committee should exercise discretion in getting its information from sources which would not exempt possibly guilty parties.

The house devoted the remainder of the day to minor matters and passed several bills, among which was the famous Mussel Shoals dam bill, which was before the house before it was sent to the president, who returned it with suggestions from the secretary of war as to amendments. The bill permits the creation of an immense water power on the Tennessee river in Alabama and has been pending before congress for several years.

JAMES W. ALEXANDER'S CONDITION IMPROVED.

NEW YORK, Feb. 23.—H. W. Alexander, son of James W. Alexander, former president of the Equitable Life Assurance society, said tonight that his father's condition was more encouraging than it had been at any time since his illness set in and the family and physicians were now hopeful of recovery.

NO ACTION TAKEN BY CITY COUNCIL

Fruitless Discussion of Hydro-Electric Company's Alleged Interference With Water System---Both Sides Air Views.

After a two hours fruitless discussion, the city council last evening failed to take any action touching the alleged interference of the Hydro-Electric company with the city's water system, and a resolution, introduced by Alderman R. J. Verner, providing for the appointment of a water supervisor was laid over. The discussion of the Hydro-Electric company matters was taken up in committee of the whole after the transaction of routine business.

Mr. Albin recommended the adoption of the report signed by himself and Alderman Holden, saying that he did not want to see the people hoodwinked not any whitewashing done. He believed that Mr. Hopkins had stated the facts in his report to the special committee; in that event there was only one course open to the council and that was to adopt the report which he had submitted.

Mayor Hall questioned Alderman Albin regarding the statements contained in the Albin-Holden report, and for a time very sarcastic language was used, the mayor repeatedly calling Mr. Albin to order.

A Lively Tilt.

The mayor—You charge that the company has seized full and complete control over portions of the city water system. I ask when and where?

Alderman Albin—At Cabin creek and at South Ruxton creek.

Mayor Hall—What does the gentleman mean by "seized?"

Alderman Albin—The mayor is a very learned gentleman and familiar with the English language; he probably knows the full meaning of the word.

Mayor Hall—I ask if you mean that the company took possession by force?

Alderman Albin—I didn't know that I would have to butt up against the general attorney of the Hydro-Electric company, or that I would be placed upon the witness stand. The mayor should read through the Hopkins report.

Mayor Hall—I find nothing in that report that says the company seized any part of the city water system, or that employes of the city had been compelled to subordinate the city's interests to that of the company. I demand to know the names of those employes.

Alderman Albin—And I decline to give them to you for fear that you might see fit to bring about their discharge.

Hopkins Under Fire.

The questioning continued for several minutes and finally Superintendent Hopkins was called in and questioned by various members of the council.

Hill—Has the city ever been in danger from fire owing to a lack of water?

Hopkins—That depends upon the size of the fire.

Verner—Say a fire like that which destroyed the Antlers?

Hopkins—On May 24, 1905, the Mesa reservoirs were out of water and we could not have fought a fire like that which destroyed the Antlers.

Hill—Who shut off the water?

Hopkins—The Hydro people, by permission of the mayor and chairman of the water committee, for the purpose of putting in screens at the intakes.

Hill—Was it possible to turn water into the 14-inch main?

Hopkins—Possible, yes, after considerable work.

Tucker—The city gave permission to turn off the water, didn't it?

Mayor's Permission.

Hopkins—The mayor and chairman of the water committee gave permission; it was turned off on May 23. The day before the company got permission the Mesa reservoirs were full.

Hill—How about the valve without a stop?

Hopkins—The reason that I asked that the valve be repaired was so that in case of fire the valve could be opened and the water let down the 14-inch line. At the time of the washout in the 14-inch main, I would have shut off the water at the intake. Instead, the company turned the water down the 14-inch main without my knowledge.

Seldomridge—What was the condition of the high line reservoir on February 21, 1905?

Hopkins—It contained about 5,000,000 gallons. I sent my assistant to Bear creek and told him to take all the water possible through that line. Bear creek was turned in February 23.

Alleged Interference.

K. R. Babbitt—I would like to ask Mr. Hopkins if there has been any trouble or interference since the agreement of last September?

Hopkins—Yes, interference from the screens.

Babbitt—The city gave permission to move the intakes on Cabin and South Ruxton creeks, and if there has been any trouble, it has not been reported to the company.

Hill—What I cannot understand is why should a city employe be expected to report to the company.

Mayor Hall—It has not been reported to me.

Hill—I should think the council is the place where it should have been reported.

Considerable time was spent in questioning Mr. Hopkins upon the subject, but nothing beyond what was included in his reports was brought out.

Rapid Fire Questions.

The questioning by Mr. Babbitt, the mayor and aldermen became so rapid that finally City Attorney Robinson took a hand and said that if Mr. Babbitt intended to cross-question the water superintendent as counsel for the company, he would ask a few questions as counsel for the city. At times there were three or four asking questions at once, and frequently before Mr. Hopkins finished answering one question he was interrupted by another.

Pays No Dividends.

Attorney Babbitt—I just want to say a few words in conclusion. I know that the officials of the company are anxious to comply with every requirement of the Jackson franchise and are anxious to co-operate in every way with the city in the saving of water. The city has now and always has had absolute control of the water system, and can regulate the amount of water we receive by the opening or closing of the valve at Lake Moraine. There has been considerable talk about the corporation and its dividends, and I know that I stand here tonight in an unpopular position, but I am willing to face it nevertheless. As a matter of fact, while we have considerable money invested in the company, it has never paid a dividend and we have even had to borrow money with which to pay interest upon our bonds. The members of the council as well as the officials of the company are business men and I see no reason why we as business men cannot get together. Whatever is for the benefit of the city is for our benefit. If you gentlemen will get to the bottom of this thing, you will find there was no friction and has been none until these reports came out. The company has always stood ready to comply with all of the requirements of the franchise and, if desired, we are ready to go ahead and construct the pipe line to Lake Moraine. We were told that we could not build the pipe line, and that if we did build it, we could not use it.

City Attorney's Advice.

Attorney Robinson—I desire to say a few words to the members of this council upon this subject. I have been forced into this thing by some of the

(Continued on Page 2.)

HART NO MATCH FOR BURNS; LATTER GETS THE DECISION

LOS ANGELES, Cal., Feb. 23.—By those who took Marvin Hart's claim to the world's championship title seriously, Tommy Burns of Chicago may now be considered the heavyweight champion. Burns decisively outpointed Hart tonight at the Pacific Athletic club pavilion and was given the decision at the end of the 20th round.

From start to finish, with the possible exception of the 10th and 12th rounds, when Hart had a very small advantage, Burns outfought the bigger man; outgeneraled him and beat him at every point in the game of boxing. At times Burns, although handicapped in weight and height, made Hart look like a novice.

In the opening rounds Burns was very nervous and lacked confidence. After this, however, he quickly sized Hart up and began a systematic attack on his face and body with straight lefts. In the third round he started the blood flowing from Hart's nose and kept it running in almost every round thereafter. In the fifth Burns cut Hart over the right eye and in the following rounds battered the optic until it was closed. The left eye also was badly marked and Hart's face presented a bloody sight practically throughout the fight.

Hart failed to show any championship form of any sort. His persistent attempts to rough it in the clinches earned the disapproval of the crowd, which appeared to be with Burns almost to a man. Burns' style of attack was to shoot his left to the face or body and step inside of Hart's swings, allowing them to go around his neck or ducking them entirely. Hart simply could not land on Burns and toward the latter part of the fight tried hard to rough it and wear Burns out by using his weight in the clinches.

In the 14th Burns appeared to have a chance to knock Hart out. He caught the bigger man a right and left on the jaw that sent him staggering for a moment. Quickly seizing his advantage, Burns battered Hart about the face and head [illegible] he forced him to cover up and give ground.

In the last few rounds, seeing the tide of battle going against him, Hart, urged by his chief second, Tommy Ryan, tried desperately to corner his quick-witted opponent and administer a knockout. Every attempt failed, however, and every round found Burns [illegible] lead. Hart weighed about 195 pounds while Burns [illegible] The betting [illegible] and even [illegible]

NO ACTION TAKEN BY CITY COUNCIL

(Continued from Page 1)

extraordinary statements that have been made here tonight. It has been said that the company was [illegible] by officials of the city that it could not build the pipe line required by ordinance and that, if it did build the line, it could not use it. I hope Mr. Babbitt will say who that officer is. It is alleged that there has been no interference with the water system, but if I understand the statements correctly, Mr. Taff told two city officers practically to go to h—, as the company had a right to the water and would use it. No individual who owned the system would tolerate the interference that has been shown to have taken place. We are all officers of this city and the members of this council must act in the interest of the city. I do not believe that any court would hold that this city has not the right of control of its water system. The city has not yet surrendered its rights to private parties.

Alderman Hill questioned the right of any committee of the council to grant permission to change intakes on Cabin and South Ruxton creeks.

Hopkins—What is the effect of the agreement made in September?

Attorney Robinson—Of no effect unless ratified by the council.

Rubbish Washed Back.

In response to questions by the mayor, Hopkins said that the sand and rubbish removed from the screen by the Hydro men was thrown upon the bank and washed back into the Ruxton intake.

Taff—The sand at the upper screen on Ruxton creek was thrown into a pit and not upon the bank; the flowing material was thrown upon the bank and hauled away. I am positive that none of it got back into the intake or it would have clogged the nozzles. In my opinion there is not 5 per cent of water wasted at the South Ruxton intake. At Cabin creek we have been receiving no water except during the heat of the day.

Attorney Babbitt—The company has offered to install automatic valves at the power plant settler which would effectually prevent any wasting of water at that point, but so far permission had not been given.

Verner's Resolution.

The council then reconvened in regular session and Alderman Verner moved the adoption of the following resolution:

Whereas, It appears to the council that it is necessary for the city to appoint a supervisor whose sole duty shall be to oversee, control and patrol, and have full and complete authority over, that part of the waterworks system affected by the provisions of an ordinance dated September 8, 1898, whereby certain rights were granted to George W. Jackson, his associates and assigns; and,

Whereas, The Pike's Peak Hydro-Electric company claims to own and possess, as assignee of said George W. Jackson, all of the rights granted in said ordinance to George W. Jackson, therefore,

Resolved, That the council proceed to appoint a supervisor to oversee, control and patrol, and have full and complete authority over that part of the city's waterworks system which is in any manner affected by said ordinance; that the said The Pike's Peak Hydro-Electric company be required to compensate the city for the expense of said supervisor in the sum of $150.00 per month; that said supervisor shall be under the direction and control of the superintendent of waterworks, and he shall immediately report to said superintendent of waterworks any violation by said company of any of the terms of said ordinance either by waste of water, pollution of water, interference with the successful operation of said water system, or otherwise; and that the superintendent of waterworks shall report in writing all such violations to the council at its next regular meeting.

Resolved, further, That the superintendent of waterworks is hereby instructed to put the Manitou settler of the city's water system in good repair immediately.

Resolved, further, That unless the pipe line described in section 3 of said ordinance of September 8, 1898, is constructed and completed as in said section described, on or before December 31, 1906, the failure to so construct and complete said pipe line shall be taken to confess a forfeiture and surrender of all rights granted by said ordinance.

Mr. Babbitt had no objections to the passage of the resolution, but asked that longer time be granted for laying the pipe, as the orders could not be filled by the mill within the time specified.

Mr. Verner spoke in support of the resolution.

Mr. Tucker feared the passage of the resolution would cause a conflict of authority between the supervisor and the superintendent.

In response to a question by Mr. Holden the city attorney said that he wouldn't advise the passage of the resolution if the council intended to proceed against the Jackson franchise.

On motion of Alderman Tucker the council by vote of 5 to 3 postponed action upon the resolution until the next regular meeting.

Hopkins Takes Reply.

Following is a reply by Water Superintendent Hopkins to the contentions of the Hydro-Electric company:

Colorado Springs, Colo., Feb. 22, 1906.
To the Special Committee:

Gentlemen—I desire to correct some of the statements made by Mr. Taff with reference to my report handed you on February 8.

"No Objections Raised."

There was objections raised on account of Cabin creek water not being taken. When the company was getting ready to start up the old plant.

They proposed to extend the pipe up to the same level of South Ruxton intake, or extend it down to the old plant and take it in there, but it was never done.

The occurrence on August 27, 1905, referred to by Mr. Taff.

"He said was not worthy of mention, as the water did not escape but a few minutes."

On this occasion our caretaker came down from Lake Moraine and closed off both Ruxton and South Ruxton intakes. The water was off nearly two hours.

"Ruxton Intake Screens."

Mr. Taff state that he designed his first screen, "on the basis of statements made by Mr. Hopkins of what was required of such screens. This screen did not work because instead of the water bringing down only gravel, as had been stated by Mr. Hopkins, various other foreign substances were brought down and the screens clogged. Later, and on or about January 20, another screen was prepared by this company and installed."

Mr. Taff is in error in the above statement. I have never made any suggestions as to design, nor have I approved any of his screens. Mr. Waltman, assistant city engineer, called me into his office and showed me a plan of this screen. I told him it would not work and I would not let it be put in, unless our old screen be left in also. Our old screen to be moved ahead a few feet and a valve placed between our old screen and a small concrete pit in front of the intake pipe and Mr. Taff's screen set over this small concrete pit, so when his screen clogged, we could open the valve and take the water through our old screen. On January 20, 1905, Mr. Taff put in these screens according to the above arrangement, made with Mr. Waltman, but he put, in a 14-inch valve with neither gate nor stem. He put in an old gate that did not belong to this valve and did not put in any stem. I called his attention to this valve and he said the stem had been misplaced, but that he would attend to it. I urged him several times to have that valve put in working order, but he always put me off with a promise. It is there today just as it was.

Mr. Taff's Errors.

Mr. Taff is in error again when he said he installed his second screen on or about January 20. His first screen was installed on January 20, and his second screen was installed on February 4, as stated in my report.

The large screen of which Mr. Taff speaks so often, and which he said would have prevented further trouble if he had been permitted to install it, I can see no benefit derived from this screen owing to the location of it. Mr. Taff said this screen was installed on June 10; here again he is in error, for this screen was installed on May 23 (see bottom page 4, my report).

Ruxton intake was not full of sand when this screen was installed, as Mr. Taff stated. Five weeks after the installation of this screen (June 27-28) we cleaned out Ruxton intake as I have stated in my report (page 9). Sand was six feet deep. All this sand passed through or was shoveled over this screen into the stream below and was carried into the intake a distance of about 75 feet.

During May and June Ruxton creek was very high and large quantities of sand came down. Part of this time we kept the mud pipe open 10 or more turns as we could not use all the water, this kept the intake from filling with sand.

About the latter part of June we began to close down the mud pipe as the water decreased in the creek. When the mud pipe was closed the intake filled up very rapidly (see my report, page 9).

I would like to ask Mr. Taff what became of this sand and debris that was kept out by this large screen, which he said worked so admirably. It is true that he kept two men there day and night to shovel sand off of the screen, but where is the sand now? It has all washed into the intake and was cleaned out as above stated.

Lack of pipe capacity. "We desire to say emphatically that if there was any scarcity of water in the reservoirs of the water system during any part of the spring and summer of 1905, it was due solely to the lack of pipe capacity to carry the water from Manitou to the reservoirs.

"The supply of water delivered was at all times ample."

Then why was it necessary on May 13 for us to turn some water down our old 14-inch main?

Your attention is drawn to copy of record of my office, with reference to condition of Mesa reservoirs, which copy of record is attached to my report, and is an important part of it.

More Errors.

Mr. Taff said, "Much stress is laid upon an occurrence of the 12th day of May mentioned on the eighth page of said report, referring to the turning of water from the pipe line of the company down the old line, and it becomes proper for us to state the conditions under which this was done." Mr. Taff is in error when he stated what he did with reference to the bursting of his 24-inch valve at Rock creek. If I am rightly informed, that valve was frozen and burst while they were testing their pipe line during the early part of February, but whether that be true or not, the fact is that break was discovered on the 24th day of May (see my report, page 8), and not on the 12th, as he stated. You will remember that he had the water all shut off the day before (May 23), putting in his large screen. How could the turning of the water down our old line on the 15th cause a break 10 days later.

Mr. Taff said "June 27-28 records of this company do not show that the plant was closed down for seven and one-half hours, or for any period of time. On the occasion referred to by Mr. Hopkins in his report (page 9), which is evidently an error."

Our records show that the water was all off for eight hours, and only three to five turns on for four hours, during June 27-28. I agree with Mr. Taff that there is evidently an error in his records.

Cabin Creek.

I have paid but little attention to what was done on Cabin creek. Mr. Taff has had his own way about it. I did object to laying a pipe line on a burro trail, but Mr. Taff said he was going to pile earth upon it from three to six feet deep. I examined it recently and found it 15 inches deep.

The labor performed by Mr. Taff's men now, was unnecessary before they placed these screens and sand boxes in our way. Our caretaker at the Manitou settler took care of all the sand and trash that passed our intakes. It was only necessary for one of our caretakers to come from Lake Moraine two or three times a week except during floods or cold weather, or when something went wrong about the old plant.

"Mr. Taff can see no point with reference to moving of the intakes on South Ruxton and Cabin creeks higher up, as has been done." The possibility of contamination is very little greater, if any, between our old intakes and his new intakes than it is above the new intakes. Considerable water is developed between old intakes and new intakes, as may be very easily determined by an examination of local conditions. This city cannot afford to cut out large areas of its watershed in this way and thereby endanger its title to same.

We will assume that 120 acres have thus been cut out on account of moving those intakes higher up and I believe that to be a low estimate. The Colorado Springs Gazette published on August 8, 1901, a report on the Seven Lakes system made by Mr. H. I. Reid, former city engineer. Mr. Reid found, as stated in his report, the average mean precipitation for 16 years (1871-1886) to be 21.886 inches. He calculated the run off to be 70 per cent, or 22.22 inches. Reid then takes 60 per cent of the lowest yearly precipitation and finds the run off to be 28,187,344 cubic feet per square mile (640 acres). On this basis, 120 acres is just one-half of that amount, or 12,593,672 cubic

Guard City Rights.

feet, or 94,452,540 gallons.

The supervisor provided for in the Geo. W. Jackson franchise was evidently intended to guard the city's rights and prevent pollution and loss of water and any interference.

No notice given, says Mr. Taff, when intakes were cleaned. On page 14, my report, under date of October 16: Notified Hydro plant that we will clean out Ruxton intake Thursday, the 19th. Water to be shut off at 8 a. m. On same day (16th) at 2:30 p. m., Mr. Taff called me up and reported a bad leak on 8-inch main near Halfway house; while talking to Mr. Taff I told him that we intended to clean out Ruxton intake the 19th. Quoting from Mr. Taff's reply: "Mr. Hopkins stated that on November 2 the pipes at the Ruxton creek intake froze and burst." As a matter of fact, however, these pipes had been broken for several years prior to the operation of the electric plant, but, notwithstanding this, on the day above-mentioned Mr. Hopkins replaced these pipes, and insisted that the Hydro-Electric company pay for it, which, rather than have a controversy, the company did."

Hopkins' Trial.

I did not state in my report on November 2 or at any other time that those pipes at Ruxton intake froze and burst, but I did notify Mr. Taff on that day "I will shut off Ruxton intake tomorrow at 10 a. m. to repair 15-inch tile pipe just below intake." I also stated why it was necessary to make such repairs. I will only refer to one more occurrence and that was on February 20, 1906. At about 7 o'clock on this day our settler man reported to me that the men at the plant called him up at 2 a. m. and said the water had decreased. He went to the settler and regulated the valve and found that the decrease amounted to just two turns. After going to the office and arranging to have some one stay there, I hurried up to the intakes to see what was the matter. On my way up I met the water coming down the creek which was flooded. I arrived at South Ruxton intake at 12:30 noon, and found the water backing out and flooding everything about there. The caretakers were there, but could do nothing to stop the backward flow. After some inquiries about the Ruxton intake and finding that the trouble was not at the intakes, I asked Mr. Harris to go to his cabin and telephone to the plant and tell them how the water was backing out and that the trouble was not in the intakes, and for them to open their pipes at the plant and let the water through, and I would stay at the intakes until 3:30 p. m. to see if they could stop this waste of water, and if it did not stop I would open our old line enough to take the overflow. Mr. Harris came back and said he told them what I said. The water continued to break out and at 3:30 p. m. I opened one and a quarter turns on the 14-inch valve on our old line. I then went back to the intake and found that the pipes were feeding all right. I instructed the men to close the valve off again at 8 a. m. the next morning. I left the intake at 4 p. m. On my way down I met Mr. Benton coming up from the plant. I asked him how things were working. He said when he left at 3:30 p. m. things were working better. I told him the arrangements I had made and asked him if he understood it. He said he did. After I got home I telephoned to the plant and explained the arrangement.

February 21, at 8 o'clock, the 14-inch valve was closed and their pipes took the water again and the increase came on at 9 a. m.; during all the time from 2 a. m. on the 20th to 9 a. m. on the 21st, the valve at the Hydro settler was not changed. I could not determine the cause of this trouble.

Respectfully submitted,
J. A. HOPKINS, Superintendent.

JOHANN HOCH PAYS PENALTY

(Continued From Page 1)

pus had been denied by Judge Landis, preparations were commenced at the jail for the execution of Hoch. Dr. H. R. Davis, the county physician, first went to the prisoner's cell. Hoch asked what time it was, and when told it was almost 10:30 o'clock replied:

"They said the end would come about 10:45. I have then 15 minutes to live and I want to tell you that I am innocent. I believe in respect for the law but I am not guilty of murder."

Hoch was advised that his attorneys were making strenuous efforts in his behalf, and to the Rev. Dr. Siechts who called immediately after Dr. Davis, he declared that he intended to insist that all the time given to him under the sentence should be allowed. He told the clergyman that if an effort was made to take him to the scaffold before 1:30 o'clock he would resist.

Ready for the End.

Jailer Whitman went to Hoch's cell accompanied by six guards.

"Johann, your time has come," he said. Hoch had advanced to meet the party and said calmly, "I am ready."

As he left the cell Whitman noticed that he still wore his collar.

"You will have to take that off," he said.

"All right," replied Hoch. He took it off and threw it into the cell. As the death march started he stopped several times to shake hands with the attendants, saying "Good-by, boys."

Just at 1:32 o'clock Hoch stepped upon the drop.

"Do you want to say something?" asked Peters.

"Yes," said Hoch.

His Last Words.

Rev. Burkland was still reciting the prayer, and Jailer Whitman motioned to silence him. The clergyman, not noticing, continued with the prayer and Mr. Whitman stepped to the edge of the scaffold and asked him to desist for a moment. As soon as the voice of the clergyman had ceased Hoch spoke up in a strong voice, saying:

"Father, forgive them for they know not what they do. I must die an innocent man; good-by."

He bit off the last two words in a crisp, concise fashion and just as soon as he had uttered them the drop fell.

COURT ACTS IN MOYER CASE

(Continued From Page 1)

ately arrest them, but it is said there is no precedent by which the right or lack of right to do so could be determined. It is further claimed on behalf of the state that this point can not be successfully raised now, since the defense has no knowledge of what the state will offer to prove at the trial. In this connection it is pointed out that, it is claimed by the state that some or all of these were in this state at different times with Harry Orchard and that it may be the intention of the state to prove that they conspired to commit the crime.

Attorneys Richardson, Miller, Nugent and Moore went to the state penitentiary this morning and asked to see the prisoners and Harry Orchard. They saw all of the men except Orchard, who sent out word that he did not care to see them. It was stated that Orchard was sick, but no physician has been called for him and it is inferred that this was a ruse to keep the lawyers away from Orchard. Attorney Richardson entered a vigorous protest against the prisoners being under the rules governing convicts.

Tomorrow the prisoners will be taken to Caldwell, where a grand jury will start to investigate the assassination of Steunenberg. It is stated that important evidence has been secured by detectives, who have learned the cipher code used by the Western Federation of Miners in telegraphing and letters.

DENVER, Feb 23.—Adjutant General Bulkeley Wells returned from Idaho today and held a conference with Governor McDonald. Earlier in the day the governor had expressed the opinion that General Wells would remain in Idaho to testify before the grand jury which will be impaneled tomorrow and begin work on Monday.

Greene Released.

Special to The Gazette.

CRIPPLE CREEK, Feb. 23.—Ed Greene, who was arrested several days ago on information from Denver stating that he might have some connection with the crimes mentioned in the alleged confession of Harry Orchard, has been released. He appeared in the district court this morning. His attorney, J. F. Hangs, asked that definite charges be made, or the prisoner released. No charge was made. Judge Seeds delivered an extended reprimand to Sheriff Bell and his official forces for arresting Greene without having reasons for which he was to be prosecuted. The court taxed the costs against the sheriff's office. Sheriff Bell says that if this is to be the rule of procedure when criminals are wanted, he cannot arrest them.

ROUTINE BUSINESS BEFORE CITY COUNCIL LAST NIGHT

[illegible]

The message was presented by Mayor Stevens [illegible] during which time some heated arguments were indulged in regarding the charges of Sir Alderman Hopkins against the Hydro Electric company.

A communication from Auditor C. M. Perry correcting the summary of bills allowed at the last session of the council was read and on motion the corrections were ordered made and warrants for the amount of difference.

On motion of Alderman Verner, the clock which accompanied the form of application of Ed Meislahn was ordered returned to the petitioner.

Julius Pearse representing the Seagrave company and N. L. Francis representing the American-La France Fire Engine company were granted the floor to discuss aerial truck matters. Mr. Francis offered to furnish his machine with the Duvoll water tower, include an extra wheel and pompey belts with the other furnishings of the truck and save the city $250 of the price made by the Seagrave company, besides guaranteeing the apparatus for five years. Mr. Pearse also agreed to furnish an extra wheel and meet the other extras named by his competitor. On motion of Alderman Seldomridge the council by vote of 6 to 5 referred the purchase of an aerial truck to the purchasing agent and recommended that a contract be closed with the Seagrave company.

Capt. Alex Reichenheld of the H. C. Gasper company, I. O. R. K. of P., explained to the council that his organization desired a contract for a street fair to be held in this city upon private property during the centennial celebration, the revenue to be used in sending a drill team from the company to the meeting of the supreme lodge to be held in New Orleans, and asked that the same courtesies that had been extended to other organizations in the past be granted the Pythians in that the license fee be rebated. On motion of Alderman Verner it was voted to be the sense of the council that no fee be charged the Pythians for their street fair, all voting yea except Alderman Seldomridge.

A communication from the carriage drivers of the city urging that the license fee be fixed at $10, that licenses be granted only to those persons who had been residents of the city for six

LIMB WASTED WITH ECZEMA

Obliged to Lie With Limbs Higher Than Head — Suffered Untold Agonies and Could Not Walk — Doctor Said It Was the Worst Case he Ever Saw.

ANOTHER WONDERFUL CURE BY CUTICURA

"I received your letter asking for information about using the Cuticura Remedies. I used them for eczema. The doctor said it was the worst case he ever saw. It was on both limbs, from the knees to the ankles. We tried everything the doctors knew of, but the Cuticura Remedies did the most good. I was obliged to lie with my limbs higher than my head, for the pain was so terrible I could not walk. I suffered untold agonies. One limb wasted away a great deal smaller than the other; there was so much discharge from it. I found the Cuticura Remedies very soothing, and I still keep them in the house. I am very thankful to say that I am cured, and you can publish this statement if you wish. I found the Cuticura Remedies all that you say they are. I hope that you may be spared many years to make the Cuticura Remedies for the benefit of persons suffering from the torture of skin diseases such as I had. I remain, yours respectfully, Mrs. Golding, Box 8, Ayr, Canada, June 6, 1905."

CURED OF CHAPPED HANDS

"I have used the Cuticura Soap for chapped hands, which I had been troubled with for about three years. I suffered intense pain and itching. I used nearly two cakes of the Cuticura Soap, and my hands were completely cured and have never troubled me since. I also took the Cuticura Resolvent for the blood at the same time. I can recommend the Cuticura Remedies to others suffering the same. Chas. Young, Plattsville, Ontario, Canada, Sept. 29, 1905."

Complete External and Internal Treatment for every Humor, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, Ointment, Resolvent, in form of Chocolate Coated Pills, 25c. per vial of 60; enough to be kept of all druggists. A single set often cures. Potter Drug & Chem. Corp., Sole Props., Boston. "How to Cure Skin Diseases," 64 pages, mailed free.

ORATORICAL CONTEST

State Event Won by Agricultural College Last Night.

E. J. Iddings, representing the State Agricultural college, won first prize at the oratorical contest, held last night in Denver, and Olin P. Lee, representing the Denver university, took the second prize. Colorado college was represented at the contest by James C. Callihan and Raymond C. Farmer. Six colleges were represented in the contest held to decide which contestant should represent the state in the interstate contest to be held sometime in May.

Societies and Clubs

"A Day in the Union Station," is the title of a pleasing character play to be given by the Woman's union of the First Congregational church in Perkins hall Friday evening, March 9. Scenes enacted every day in city passenger depots will be given in a way that appeals to the humor as well as to the finer sentiments. The ladies will devote the proceeds of the entertainment to the parish house erection fund.

The North End W. C. T. U. will hold a Frances Willard memorial service at the First Baptist church on Sunday evening. The Rev. Dr. Franklin will deliver an appropriate sermon, and the choir will sing special music.

Chapter C. L. E. O. will meet at the home of Mrs. Fred Sperry, 314 South Cascade avenue, this afternoon at 2:30 o'clock. All members are invited to be present.

A special work meeting of the Plymouth Twenty will be held on Monday at the home of Miss Barker, 1923 North Tejon street.

A meeting of the Woman's auxiliary of the Y. M. C. A. was held in the association building yesterday afternoon at 3 o'clock. Routine business was transacted.

Personal Mention

John A. Voorhees returned yesterday from Topeka, Kas., and will be in the city for two or three days before leaving again for Utah.

Miss Clara B. Keyhoe, of Deaconess hospital, has returned to this city after an absence of three weeks spent at the bedside of a member of her family in Ottumwa, Iowa.

DEATH—George A. Astle, 21 years old, died Thursday afternoon at his home, 412 East Yampa street, as the result of heart failure. Mr. Astle, who came to Colorado Springs from the east, is survived by his wife, who will accompany the body to Utica, N. Y., where interment will be made.

TARRY ALONG SUNS
G. M. & S. E. ASSOCIATION.

COLORADO CITY

WILL EMPLOY 500 MEN

Large Force of Workmen Busy on Mills at Colorado City.

About sixty men are at work remodeling the Monitor Cyanide mill, which is expected to be in operation by August 1. A force of forty men is at work building the new cyanide plant at the Standard Reduction works which will be completed by May 1. When these two plants are completed about 500 additional men will find employment in Colorado City.

COLORADO CITY NEWS NOTES.

Mrs. Fred Pfeifer has moved to Colorado Springs.

Harry Sauner has returned from Harlsed, Colo.

C. T. Murphy left yesterday on a business trip to Denver.

Mrs. J. M. Hill left yesterday for a visit with relatives in Grand Junction.

Miss Helen Hollinger left yesterday for an extended visit at Cheyenne Wells, Colo.

Charles A. Little has moved his residence from 926 Monroe avenue to 116 South Fifth street, in Colorado Springs.

Tonight is souvenir night at Mack's candy store. The latest puzzle, "Put the Mouse in the Trap," will be given with each 10-cent purchase.

Members of the local lodge of Woodmen of the World held a social in their hall last night. The attendance was large and all had a jolly time.

Don't forget to get that photograph taken today at Montgomery's. Open Sundays. 623 Colorado avenue, Colorado City.

El Paso lodge, No. 47, Knights of Pythias, conferred the second degree upon six candidates last night. Over thirty applications for membership were acted upon.

One dozen nice photos that are guaranteed for only $1.50 today. Would cost you double elsewhere. Come today. At Montgomery's, 623 Colorado avenue, Colorado City. Open Sundays.

Rooms for the Boys' branch of the Y. M. C. A., under the First National bank, will be ready for occupancy in about a week. The membership will be over 100.

It seems too much to pay double for photos when you can get the same for $1.00 at home at Montgomery's, 622 Colorado avenue, Colorado City. Open today. Come in.

The patriotic social given by the Ladies Aid society of the First M. E. church in W. C. T. U. hall last night was well attended and netted a neat sum for the society. Prof. L. B. Grafton and the Rev. Charles F. Seitter delivered patriotic addresses which were highly appreciated.

The Rev. B. W. Powell has been presented with $50 by the little folks of the Junior league, the proceeds of their recent valentine sale, the sale being limited for ten customers.

The Rev. Father M. Callahan, of La Junta, formerly pastor of the Catholic church here, has been calling on his friends here this week, and has added the "Benedicite" statue to the grotto of Our Lady of Lourdes, which Father Callahan gave the church last year, and for which a grotto was built. It stands at the left of the pretty little church on Ruxton avenue.

A THOUSAND DOLLARS THROWN AWAY.

"My wife had long trouble for over fifteen years," writes Mr. W. W. Baker, of Fairmont, Neb. "We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope when a friend suggested trying Foley's Honey and Tar, which I did, and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has enjoyed in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it." For sale by the Hefley-Arcularius Drug Co.

SATURDAY, FEBRUARY 24, 1906.

THE INSURANCE REPORT.

A SUMMARY of the report of the New York legislative committee on insurance investigations was given in the columns of The Gazette yesterday. Even the summary is a voluminous document, and the report itself is a volume of more than 200 pages, containing recommendations under sixteen different heads. It is doubtful if anybody in this state not in the insurance business will read the whole report, and even the reading of the summary may leave a confused impression, from the form in which it was cast.

The committee goes very fully into the matters regarding which it took testimony in New York City for so long a time. This testimony was often handled for the press in a rather sensational way, making the most of anything which seemed shocking, and giving a general impression of mismanagement which in all cases was not deserved. The committee finds many things deserving censure in the past management of most of the companies—excessive salaries, sinecures, participation in profits of operations for the company and with the company's money by paid officials of the company, juggling of accounts, insufficient publicity of details of operation, large amounts spent for influencing legislation, without a proper accounting by the disbursing officers; and finally, an inefficiency in the Insurance Department of the State of New York, which seems always to have been content with finding out whether the companies were solvent or not, and paid no attention to their methods of conducting business or the character of their investments.

As for the remedies, they are indicated in many departments by the mere statement of the faults found to exist. For instance, in those companies which have professed to be mutual, the affairs have generally been managed by a few of the stockholders, and the policy-holders have had little or nothing to say. It is recommended that the companies be made mutual in fact as well as in name, and that the policy-holders have a larger voice in the management. Plans are outlined for effecting this change, into the details of which we have not now the space to go.

In regard to investments, the committee recommends that none be allowed in stock of corporations except those which are public and mutual; that investments be prohibited in bonds secured by hypothecation of corporation stock to the amount of more than one-third of the value of the entire security; that companies now holding stock and bonds prohibited in the foregoing specifications shall dispose of them within five years from date; that participations in syndicates on joint account shall be prohibited, and that no officer of any company shall participate in any purchase, sale or loan made by the company for its own benefit. These are sweeping changes, and if adopted will revolutionize the business of the "big three" in some respects.

The committee also deprecates the system of deferred dividends, under which such enormous surpluses have been piled up, leading to the immense loans in which most of the alleged graft was found to exist. There is no good reason, the committee thinks, why dividends should not be distributed among the policy-holders as they are earned, at least annually. A recommendation is also made that the volume of business to be done in any one year by one company be restricted to $150,000,000—a limitation which in itself shows the enormous size of the business already done by the three largest companies.

It is admitted that the companies may find it necessary to be represented by counsel or otherwise at Albany and other state capitals, and it is entirely proper that such representation should exist; but a strict account should be kept of all moneys used for legal expenses of this character, and no lobbying of the character which was under the control of Andrew Hamilton, with an unlimited fund at the disposal of the head of the bureau, and no responsibility for it on his part, should be permitted. While it is admitted that companies have to protect themselves from "strikes" and hold-ups by legislators, it is pointed out that argument by counsel and publicity in regard to the character and purpose of strike bills, would generally accomplish their defeat.

Further publicity of accounts is earnestly recommended. Details of all expenditures should be given, and vouchers presented and carefully audited. Finally, the state Department of Insurance should wake up and attend to business. Its powers already are ample to do a great deal more than it has ever hitherto done; and where the powers are deficient they should be enlarged by legislative action. The examination of a company by the department should be more than a perfunctory affair, directed only to the ascertainment of the solvency of the company; it should ascertain whether the company is conducting its business according to law.

This report by the New York committee will be of great importance to committees in other states, most of which at the next sessions of their legislatures will have their attention directed to insurance matters. The recommendations of the New York committee seem to be good, on the whole, though there is doubt as to whether the volume of business can properly be restricted by law; in the main, however, they seem to go to the root of the difficulty, and they will no doubt be followed by many other states. Insurance experts should study this report carefully, and at the next meeting of our own legislature a bill should be introduced embodying at least some of the provisions recommended in New York.

NEW YORK CITY'S CREDIT.

THE TAXPAYERS and financiers of New York were surprised the other day when the new issue of municipal bonds sold for less than similar issues have produced in former years. The best they could do was to place them at about 3.7 per cent. on a par basis. In 1899 and 1900 a better price was realized from the sale of three and a half per cent bonds than was realized last week from the sale of four per cents. The financiers are wondering what the next set of four per cents will bring. The law prohibits the city from paying more than four per cent, and it would be felt a disgrace if such bonds should be offered at less than par.

An investigation has been made as a result of this disquieting sale, which shows that many smaller cities get more for their bonds than New York. Further, it is ascertained that thirty cities of Europe which have taken up municipal ownership of public utilities have seen their bonds drop from thirty to forty points since they entered on that policy. So it seems probable that Mr. W. R. Hearst, though he did not get elected on his municipal ownership platform, did succeed in lowering the credit of the city of New York.

If even the shadow of municipal ownership has this effect in New York, what would the real thing do to the credit of such cities as Denver? Here at home our credit is still good, and our water bonds have brought fair prices; but how would it be if the city undertook to own and operate its own street-car lines and its own gas and electric plants? There are considerations worthy of serious study by those who have the welfare of municipalities at heart. They should certainly act as a deterrent on any hasty or ill-considered action in the direction of further immediate extension of municipal ownership.

MORE REPUBLICAN CLUBS.

TWO MORE Republican women's clubs have been organized in Denver this week. One was started by Dr. Minnie C. T. Love, with the idea of interesting women who have hitherto had little or nothing to do with politics in broadly political—not altogether partisan—matters. The other was organized by a number of women who were not invited to become members of the other organization, and apparently because they were not invited. It seems very difficult to get Denver women to work together in harmony.

There need be no contest, however, between these two organizations. There is plenty of room for all the women's Republican clubs that anybody wants to form. Whether women like it or not, they are voters in this state, and with their usual responsiveness to duty, many of them have taken an interest in political matters who would not have done so if the ballot had not been pressed upon them. They can do much by proper organization to help such state institutions as the Board of Charities, the Board of Child and Animal Protection, the Industrial School for Girls, and the Board of Health all of it work political only in the broader sense. They can also do more partisan work if they choose, their organizations being a useful auxiliary to the regular state organization. A spirit of good citizenship can be cultivated, political history can be studied, the principles of the party expounded and its platforms explained, so that when they come to vote they can do so for a better reason than because their husbands or brothers or friends vote that way—though perhaps that is not an altogether bad reason, after all.

However these clubs may differ, their organization is a sign of interest, and an indication that the campaign will begin early this year, and be full of enthusiasm.

Says our incontemporaneous contemporary:

The Telegraph announced several days ago that the railroads doing business at the East Side station in this city were to spend the sum of $158,000 in improvements about the depot property this year. Newspaper readers who do not read The Telegraph are still uninformed on this important subject.

The Gazette printed the first news of these improvements on October 8, 1905, and followed it up with additional developments at various times during the same month and year. A few days ago the Telegraph suddenly discovered that improvements are to be made at the Santa Fe depot, and announced the fact in big headlines. This is not the first time the evening paper has resurrected a piece of "news" five or six months old and sprung it on the unsuspecting (?) public as something brand new.

The New York papers devote more space on Mondays to John D. Rockefeller, Jr.'s, Sunday School talks than to the sermons of the noted preachers. Which indicates that in this particular field the New York papers aim to amuse rather than to instruct.

It is safe to say that the coming wedding of King Alfonso and the Princess Ena will not stir up half the fuss in Europe that was excited in this country by the marriage of the President's daughter.

Somebody has invented a way to manufacture electricity from wind. The title of human dynamo, as applied to Mr. Bryan, will hereafter be something more than a figure of speech.

The American consul at Bordeaux reports that the supply of French briar root is really exhausted. Fortunately the supply of corn cobs is undiminished, so the pipe smokers are still safe.

President Castro's article on "The Creed of Nations," in an American weekly magazine is a remarkable effort—so remarkable that it makes one wonder who wrote it.

The extraordinary majority given in the Senate for the Pure Food bill arouses the suspicion that the measure has been adulterated into an impure food bill.

Emperor Francis Joseph is also prepared to indorse Shakespeare's remark concerning the uneasiness of the head that wears the crown.

LIEUT. PIKE'S DIARY

For One Hundred Years Ago Today

Monday, 24th February, 1806. We started early, and after passing over one of the worst roads in the world, found ourselves on a lake about three o'clock, took its outlet and struck the Mississippi about one mile below the ponies mentioned on the first of January, by which I knew where we were. Ascended the Mississippi about four miles, and encamped on the western side. Our general course this day was nearly south, when it ought to have been south-east. My young warriors were still in good heart, singing and showing every wish to keep me cheerful. The pressure of my racket-strings brought the blood through my socks and mockinsons, from which the pain I marched in may be imagined.

RECENT DISCLOSURES.

The good citizen and square dealer falls back, however, upon two points of comfort, first, that there was a prodigal amount of rascality in the days when there was vastly less publicity, and second—and here is his best consolation—that the standards of public opinion are as high as ever, and that, contemporary with this hideous exposure of wrongdoing, the signs are numerous of a revival of the ethics of business, as well as of the ethics of politics.

In a private discussion not long ago of one of the most pathetic cases of ruined reputation that recent events have illustrated, the fact came out that this man—so widely honored and beloved, and still so sympathetically regarded—had long realized the misfortune of his situation, deeply deprecating the supposed necessity of continuing certain corrupt and demoralizing practices. It is evident that if such ethical questions as he, for many unhappy years, decided according to unfortunate custom, could reach his authority again, after a period of exposure and retribution such as has just taken place, he would not hesitate to declare to his associates that, obviously, "honesty is the best policy," as well as the most agreeable part that honorable men can play. So it is now everywhere easier for honest impulses and suggestions to prevail in all matters relating to the conduct of business.

The most conspicuous exposure that has taken place, of course, that which was precipitated by certain insurance imbroglios, and there was good fortune in the fact that these exposures, almost more than any other possible ones, touched individual interests well-nigh infinite in extent. The lesson of common honesty has therefore been carried into every family in the entire country where exist responsibility and thrift. Every man in the business world is now watching his neighbor better than that, he is watching himself—taking to himself all kinds of warnings, making to himself all kinds of good resolutions, witnessing and taking part in a revival of applied ethics, not only in the community, but in his own heart.

There is, indeed, nowadays such a searching of souls, and such a stern application of higher standards, that there is almost danger that judges themselves will "stand up so straight" that they may fall backward into the pool of Judicial demagogy. But the searching will go on, and, on the whole, its dangers are few, while its benefits will be many and immense.—The Century.

Press Opinions

THE PASSING OF M'CALL.

The plain truth is that Mr. McCall, immersed in an atmosphere of greed and graft, forgot that he was the chief trustee of hundreds of thousands of persons who invested their savings in an institution which seemed the best possible, calculated to insure their families against the inevitable day of death. The other truth is that the men and women who paid gave too much money and much of this was wasted in buying legislators, bribing officials or in other devious ways. If only one dollar, instead of millions, was improperly expended, the moral result would have been the same.

The saddest phase of it all is that Mr. McCall believed not only that his record was unimpeachable, but that his company had been immaculate. He invited the investigation which led to his fall. The moral is plain. Integrity is necessary in every walk of life and association with the men who are trust makers and unfair rate makers leads to a moral strabismus which ends in ruin. The end of McCall is one of the saddest events in our history.—Philadelphia Inquirer.

His resort to legislative corruption to compass ends which he regarded as desirable was not so much an expression of his personal character as of the school of finance and politics in which he was bred. Born and brought up in Albany, familiar with the corridors and lobbies of the capital, a clerk in the insurance department, he naturally came to look upon the bribery of a legislature or the purchase of a political machine as the only direct, efficient, and legitimate means of promoting good laws and killing bad. His fatal error was not that he worked for his own pocket, but that he sacrificed principle for the aggrandizement of his company.—New York Evening Post.

When all has been said and done, when the subject has been considered on every side and in every light, the man who maintains the old-fashioned ideas of individual probity and personal responsibility, sustained by the approbation of his own conscience, lives his life best, whether he accumulates wealth or remains poor.—Pittsburg Dispatch.

It must, of course, be said of President McCall that he long ago drifted into corporation practices that were all too common and worse than questionable, and that in this way he became in part responsible for the establishment of a system of life insurance administration whose inherent viciousness has only recently been fully exposed and understood. But it is not easily believable of the man that up to eight or ten months ago he was conscious of the evil effects and influence of that system, that he sensed its sinister character.—New York Commercial.

The severest, possible condemnation of the conditions in life insurance to which John A. McCall conformed is the fact that they have claimed him as their victim. He has paid a terrible price for the one mistake of his career—that of submitting to rather than challenging a vicious political system, but in that matter, as in all other relating to his company, there stands out conspicuously his readiness to sacrifice himself, even unto death, for the interests to which his life work was given.—New York Evening Mail.

It is an undeniable fact that Mr. McCall was long an exponent, and at last one of the victims, of a vicious system, which became established through slow gradations, and which, therefore, never fully impressed its ugly features on those who grew up with it. He would probably have acknowledged that it was not intrinsically beautiful and excellent, but he would have maintained that it was necessary. But the melancholy reflection which the whole history of the cases in which it was employed suggests is that it was not necessary. The men who made use of it were deceived by the traditions which some at least of them inherited, by the environment in which they existed and by the instruments they used. The exposure of wrongdoing in the insurance world has been accompanied by tragedies which it is painful to contemplate, but it is not unreasonable to hope that the truths which they illustrate have been effectually taught.—New York Tribune.

THE DUPLICATE BOOKS.

Attorneys for the beef trust contend that the books of the packers are their own private property. And so they are—especially the set which is kept hidden from the eyes of all save the packers and their trusted subordinates.—Kansas City Journal.

EPWORTH LEAGUE UNION

Committees from the Several Leagues to Meet Friday Evening.

At meetings of the Epworth leagues of Colorado Springs, Colorado City, Manitou and Roswell, Sunday evening, committees will be appointed to meet and form an Epworth league union of the Pike's Peak region. The committees probably will meet next Friday evening at the Y. M. C. A. building. Frank W. Wulff, of the First M. E. church Epworth league, is leading the movement for the formation of the union and the different committees will meet at his call.

NEWSPAPER ARCHIVE®

Grand Spring Exhibit In Our Clothing Department

The past week has been a busy one in our clothing department. Hundreds of new garments have been received and placed in stock ready for your inspection and approval.

Those who have already seen these new garments have seemed more than pleased with our Early Showing and the sales have been far beyond our expectations.

We now invite you to come and view the largest display of men's and boys' spring clothing ever shown by this store in the month of February, consisting of NEW SPRING SUITS, TOP COATS AND CRAVENETTES.

Holbrook & Perkins

EDUCATORS COMING

DELEGATES TO N. E. A. CONVENTION TO SPEND JULY 4 IN COLORADO SPRINGS.

One thousand of the leading educators of the country will celebrate the Fourth of July in Colorado Springs this year.

Two large special trains of the New York Central lines carrying eastern delegates to the convention of the National Educational association, which meets in San Francisco on July 16, will arrive in this city July 2 and 4 and will be here for several days to allow the educators to view the scenic attractions. The Pike's Peak Schoolmasters club probably will provide entertainment for the visitors including some kind of an Independence day celebration.

Irwin Tears, western representative of the New York Central lines with headquarters at Denver, was in Colorado Springs yesterday, arranging for the accommodation of the visitors to this city. He says that the two special trains have been chartered with the understanding that the occupants be allowed to spend from three days to a week in Colorado Springs. Mr. Tears says that arrangements are being made for several other trains to stop over here. A trainload of Elks will arrive here July 16 and a special Shriners' train will be in the city a little later.

CHARGE OF BURGLARY

Charles Coats Bound Over to District Court in $1,000 Bond.

Charles Coats was given a preliminary examination in the court of Justice W. N. Ruby yesterday upon a charge of burglary and larceny. It is alleged that the young man broke into the cigar store and barber shop conducted by Henry Robinson on Colorado avenue on February 4, and appropriated a quantity of cigars, tobacco and chewing gum. The defendant was bound over to the district court in the sum of $1,000, and friends at once furnished bond.

The case of the People vs. L. W. Smith, charged with inducing minors to gamble, was dismissed in the court of Justice Dunnington yesterday upon motion of the district attorney. The testimony showed that H. A. Barney, the prosecuting witness, had repeatedly bantered Smith into playing cards and pool for money but that he had refused. In view of the evidence the case was dismissed.

"There Is a Tide in the Affairs of Men Which Taken at the Flood Leads on to Fortune."

The opportunity to make a success comes to every individual at some time in his life, but it often appears in a disguised form and is not recognized until after it has flown. Failures in life result as often from poor health as from mismanagement, and yet people ignore this fact and disregard a cold until it has settled on their lungs and pneumonia has resulted or consumption has been contracted. The opportunity has passed and it is too late now to remove the cause. Your chance for success may rest in curing a cold, and there is nothing you can procure which acts so quickly as Chamberlain's Cough Remedy. It is famous for its cures of coughs and colds and can always be depended upon. It counteracts any tendency of a cold to result in pneumonia. For sale by all druggists.

Sweaters at cost and less at Robbins.

D. C. MACWATTERS BACK

Outlook Bright for Low Railroad Rates During Centennial.

D. C. MacWatters, general passenger agent of the Short Line, returned last night from Chicago, where he and Lenry Russell Wray attended a meeting of the Western Passenger association in the interests of the Pike's Peak Centennial association.

Mr. MacWatters says that the direct results of the trip will not be known until March 1, but that there is a bright outlook for an exceptionally low rate to Colorado Springs during the celebration. Mr. MacWatters and Mr. Wray told the association of the plans being made for the Centennial celebration and submitted copies of the program to all general passenger agents interested. These will be considered this week and a Colorado Springs rate from all points east will be made at a meeting on March 1. Mr. Wray did not return last night. He will spend some time boosting the Centennial in the east.

DOG MAY CAUSE WOMAN'S DEATH

MISFORTUNE CONTINUES TO FOLLOW AGED COUPLE RECENTLY BURNED OUT OF THEIR HOME.

Misfortune appears to follow the movements of John Hutchinson and wife, an aged couple whose home on South Cascajos street was destroyed by fire last Thursday morning. Hutchinson is over 70 years of age and his wife is upward of 62 years. Since the fire that destroyed all they possessed, they have been staying with neighbors. Yesterday morning in leaving the house that has sheltered them, for another neighbor's house to get breakfast, the aged woman stumbled over a dog and was thrown to the ground with such force that her left hip was fractured. Dr. Hanford responded with the city ambulance and had the injured woman removed to St. Francis hospital where the bones were reset, but it is doubtful if she will recover on account of her age.

CITY HALL NOTES

New York Library to Keep Records of City Health Reports.

Dr. P. O. Hanford, health commissioner, has received a request for a complete file of the monthly report issued by this health department for placing upon the shelves of the New York library. The request is also made that the library be placed upon the regular mailing list.

R. P. Massey has been granted permits for building frame additions for toilet and bath rooms at 203 and 207 South Weber street, and at 307 East Cucharas street, at a total cost of $186.

In the police court yesterday Judge A. P. Toombs disposed of the following business: Thomas Riley, Robert Taylor, Tom McDonald, Mart Moore, Jack Wright, Chas. McKeown and James Kelley were fined $5 and costs and committed to the rock pile for drunkenness. T. J. Ryan was fined $10 and costs, and Tom Kelley paid $10 and trimmings for a similar offense. Thos. O'Toole was allowed to take the pledge and his fine suspended.

Men's overcoats half price at Robbins.

NOTES OF THE Y. M. C. A.

Interest Centers in Series of Basketball Games.

The senior basketball team of the local Y. M. C. A. will go to Denver this evening to play the team of the Denver Y. M. C. A. The Denver team will play a return match in Colorado Springs on March 3. The Colorado Springs team will play the Redmen team of Red Wing, Minn., on March 5, and the Sioux City Y. M. C. A. team on March 13 in this city.

The boys' meeting Sunday afternoon will be held at the new Asbury Methodist church, the Rev. I. J. Heizer to make an address. The meeting will commence at 4:15 o'clock and music will be furnished by the boys' orchestra.

The basketball team which won the state championship at the meet in Pueblo, will give an exhibition Monday evening at the gymnasium. Two basketball games, music and other features by members of the team will be on the program.

The Sunday afternoon meeting for men will be addressed by the Rev. Charles F. Seitter, who will speak on "The Directed Life, or the Young Man's Aim." This is the last of a series of talks by the Rev. Mr. Seitter.

THE MUSIC OF SWEDEN

Springs Artists Gave Delightful Entertainment Last Night.

The musicale given last evening by Mrs. Frederick A. Faust, assisted by Mrs. Tucker and Mrs. Briscoe, was thoroughly enjoyed by a large audience.

Mrs. Faust traced the growth of Scandinavian music from earliest times to the present. She spoke interestingly and with clearness of different features of those compositions. Her presence at the piano, as she interpreted the various styles mentioned, added charm to the evening.

Mrs. Tucker sang the vocal numbers, from simple humming portions to the definite climaxes, in a very satisfactory manner. There is always something so beautiful and restful about Mrs. Tucker's singing that one cannot fail to be entertained. While never forcing her voice, she rises to the fullness of the larger effects with a birdlike freedom that is refreshing. Her intonation is pure and her interpretations show due regard for the finer effects.

Mrs. Briscoe played the heavy violin numbers with fine tone, true to the pitch, sensitive to shading and well-rounded effects, devoid of any harsh scraping. The lovely sonata of Grieg and the Sinding romance were played with a firmness amounting to intensity. The sweet lyric effects were beautifully done.

BONNIE NELL SOLD

DIRECTORS' ACTION TO BE RATIFIED BY STOCKHOLDERS HERE TODAY.

Stockholders of the Bonnie Nell Gold Mining company will meet in Colorado Springs today to ratify the action of the board of directors in selling part of the property to W. S. Nichols. The company owns 29 acres on Raven hill and 8 acres on Strong mountain. All is patented. While the Bonnie Nell has a large shaft house, well equipped plant and a shaft over 200 feet deep. The sale was made to raise funds to liquidate indebtedness and to save the property from sale under a trust deed. The consideration is said to be $4,000.

NEWS OF THE COURTS

George Perryman to Be Charged With Intent to Murder.

Willis McCrquodale was arraigned in criminal division of the district court yesterday to answer to a charge of assault with intent to murder. Shooting took place on December 24, 1905, during a dispute at the Dawson coal camp. The defendant entered a plea of guilty to the second count and after hearing the further evidence Judge R. E. Lewis sentenced the prisoner to 20 days in the county jail and to pay a fine of $1 and costs.

Assistant District Attorney J. W. Stratton was granted permission to file information in the case of the People vs. George Perryman, charged with assault with intent to murder Isaac A. Geer at Cathay on January 26. Bond was fixed at $500 and the case set for trial on February 27.

In the case of Tillie Hayman vs. Thomas E. Thomas, the default of the defendant was entered and judgment awarded plaintiff for $390.25.

In the county court the case of A. M. Holden vs. H. F. and H. B. Wade, an action upon a promissory note, was called up on default of the defendants to answer within the time required by law. Judgment was entered for the plaintiff for $60 and interest.

Always Keeps Chamberlain's Cough Remedy in the House

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our house," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use a cold may be checked in the outset and cured in much less time than after it has become settled in the system. For sale by all druggists.

CHARLES FORD DEAD

Philippine Veteran Known Here Passed Away in Arizona.

The death of Charles Ford, at Bisbee, Ariz., on February 21, is announced in a telegram received by B. G. Robbins yesterday. Mr. Ford was a veteran of the Philippine campaign and a member of Camp Henry W. Lawton No. 2 of this city. He went to Bisbee some time ago with his brother-in-law, B. E. Miner, to engage in mining and his death came as a surprise to friends here. Additional information has been requested by wire.

CHRONIC PAINS.

Those who suffer pain from chronic ailments will find that Dr. Miles' Anti-Pain Pills relieve the suffering. After the first trial, they will "wonder how they ever managed to get along without them." If first package fails to benefit, your money back. Sold by druggists. 25 doses 25 cents. Never sold in bulk.

PASSED AWAY—Mrs. Harriet N. Nicklin, sister of Mrs. J. F. Humphrey, died at 5 o'clock yesterday morning at the home of her sister, 122 East Platte avenue. Mrs. Nicklin, who was 59 years old, has lived here for several years with her sister. Death was caused by pneumonia. A short funeral service will be conducted by the Rev. Dr. Wilcox, of the First M. E. church, of which Mrs. Nicklin was a member, this afternoon at 2:30 o'clock. The body will then be accompanied to Warfield, Ohio, Mrs. Nicklin's old home.

LECTURE—John C. Sheld, professor of physics at Colorado college, will give an illustrated lecture on "Snow Crystals," at Perkins hall Monday evening at 8:15 o'clock. The lecture, which is included in the regular college course, will be illustrated by stereopticon views. The lecture will be open to the public.

A COLORADO SPRINGS CASE

Many More Like It in Colorado Springs.

The following case is but one of many similar occurring daily in Colorado Springs. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

E. E. Griswold, bookkeeper at A. H. Whalte & Co.'s clothing store, 18 and 20 South Tejon street, residing at 316 E. Huerfano street, says: "I just as emphatically endorse Doan's Ointment today as I did in the summer of 1899, when using it according to directions it stopped an aggravated case of hemorrhoids, commonly called piles. Before I went there I had used everything which came to my notice and had been treated by physicians but the trouble was not even checked, let alone cured. Doan's Ointment is a remedy upon which the public can depend. I have used it on several occasions since and it has never failed to bring immediate relief. I have it constantly on hand and would not take ten times the amount it costs for the box I have on hand if I knew it could not be easily purchased. I have recommended Doan's Ointment to others, who, I know, have received beneficial results."

Plenty more proof like this from Colorado Springs people. Call at D. T. Butcher Drug Co.'s store and ask what their customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WINS THE STATE CHAMPIONSHIP

JOHN H. BOOTH OF THIS CITY CARRIED OFF ORATORICAL HONORS FOR DRAKE UNIVERSITY.

John H. Booth, of Colorado Springs High school, won first honors in the state high school contest at Boulder last night. Booth is a student at Drake university.

JOHN H. BOOTH.

Monroe Howe represented Iowa college in oratorical contest between the colleges of Iowa last evening and carried away the championship of the state after defeating the representatives of eight colleges.

Each delivered an address on "The Power of Conviction" which was from that he received his decision from the judges after hearing two hours of deliberation. While attending the High school here, Booth displayed his oratorical ability, winning many contests and finally being chosen to represent the High school at the state contest.

CABBAGES FOR YOUNG ACTORS

CLASS SPIRIT BREAKS OUT AT HIGH SCHOOL PLAY—PRODUCTION A GREAT SUCCESS.

Aside from the throwing of a few choice cabbages, beets and other garden truck at the senior actors and actresses by the members of the junior class, the presentation of "Picket on the Hearth" by the senior class of the Colorado Springs High school at the Opera house last night passed off smoothly and was a success. Those in the cast took their parts well and showed cleverness and ability in the roles of Dickens' famous story. Nearly every seat in the house was taken and the class cleared nearly $100 from the production. The music was furnished by Pink's orchestra.

The cabbages came as a result of the fight between the senior and junior classes of several months' standing. The seniors took possession of the north side of the balcony last night and decorated it with blue and white pennants while the juniors floated red and white streamers from the south side of the balcony. Whenever any of the seniors in the cast drew the plaudits of the audience, the juniors in the balcony sent their compliments to the stage in the form of garden truck. Class yells followed, which enlivened the play.

The juniors are now rejoicing over their latest victory in the class fight. Four days ago they climbed into the tower of the High school building and flung their colors to the breeze from the dial of the High school clock. The seniors have been unable to reach the pennants, much to the gratification of the juniors.

HIGH SCHOOL BASEBALL

Three Games on One Day Just to Start the Season.

The Colorado Springs High school baseball nine, better known to local fans as the "Terrors," will start the season bravely. Just to "get going" the Terrors will take on three teams today, and expect to finish the third game as strongly as they start the first. They will play the Deaf and Blind school at 9:30 o'clock this morning, a team of semi-professionals and ex-leaguers picked up from anywhere at 11 o'clock, and the West Side Stars at 2 o'clock this afternoon. All three games will be played on the Steele school grounds.

The High school line-up will be as follows: Murphy, Howe and Jack Stovell, pitchers; Weller, catcher; Sinton, first; Steninger, second; Jim Stovell, third; Friend, short; Vanatta, left; Morrell, center; Morrison, right.

It is expected that the new High school athletic grounds at the corner of Yampa street and Wahsatch avenue will be ready for use in ten days. A portion of the Boulevard park grandstand has been moved to the field and the diamond will be put in condition this week.

LUCKIEST MAN IN ARKANSAS.

"I'm the luckiest man in Arkansas," writes H. L. Stanley of Bruno, Ark., "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs, and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles put her in the best condition, and worst coughs and colds or money refunded. At the Hefley-Arnularius Drug Co. 50c and $1.00. Trial bottle free.

CRIPPLE CREEK MINING NEWS

PENNINGTON, CARLYLE AND HOAR, LESSEES, OPEN RICH ORE IN STRATTON'S INDEPENDENCE.

Special to The Gazette.

CRIPPLE CREEK, Feb. 23.—Dick Pennington, H. A. Carlyle and Jake Hoar, lessees on Stratton's Independence, have opened an ore shoot about 10 inches wide that returns values of $15,000 per ton.

General Manager M. Becker stated today that under the [illegible] ment of blocks of ground in the Stratton's Independence, these are [illegible] lessees [illegible] right work.

The British American Mining Company, limited, is driving [illegible] the north end of the Dahlonega on Bull hill through the Trail tunnel [illegible] depth of 700 feet to secure good [illegible] development. When this is done the company will begin [illegible] car shipments [illegible] that for high grade [illegible] the Dante and which contains values [illegible] as Sunset.

Charles M. Becker has [illegible] interest in the Sunset [illegible] on Bull hill. The shaft will be sunk 150 feet deeper. A stringer [illegible] and is improving [illegible]

On the Mount Wash [illegible] where W. S. Stratton found his first rich ore in early days at a depth of 200 feet, a six-inch streak has been opened which assays $300 to the ton. General Manager Becker considers it one of the most [illegible] strikes that has been made on the Washington for a long time.

The F. J. Kight Leasing Company, working the dump of the Anchoria Leland mine on Gold hill, is outputting close to 40 tons daily to the Union mill at Florence. The dump is shipped without sorting and carries average values of $10 per ton. The Anchoria Leland gets $1 per ton. It is estimated the dump contains 40,000 tons.

Frank Caley, operating the Arapahoe claim of the Jerry Johnson company on Ironclad hill, today made a shipment of a car of ore of good grade which was secured at a depth of 243 feet. Caley will put the shaft down an additional 100 feet.

A new hoist and 120-horsepower boiler have been installed on the La Montaigne lease on block 8 of the Cameron school section. The working shaft is nearly 500 feet deep. Shipments are being made regularly.

Charles Schiele and associates yesterday sent a car of superior grade ore from their Orpha May lease on the Stratton estate on Bull hill. The lessees made the strike recently of a two-foot ore body near the shaft and it carries values of $1,000 per ton.

Three hundred tons of one-ounce ore is being shipped from the War Eagles claim on Bull hill by D. O. Darnell. Most of the rock was obtained close to the surface.

DUN'S WEEKLY REVIEW OF TRADE

PRICES OF FARM STAPLES HIGHER THAN THE NORMAL. RAILWAY EARNINGS SHOW BIG GAINS.

NEW YORK, Feb. 23.—Dun's weekly review of trade tomorrow will say:

Holidays and erratic weather were calculated to interrupt progress in commercial channels but business has been established on the sound a basis to reflect adverse influences of such temporary character. Prices are firmly held as a rule except in the market for farm staples which are still higher than normal, despite a general reaction.

Railway earnings continue to make splendid comparisons with last year's figures. February thus far recording a gain of 28.7 per cent. Foreign trade returns in January for the whole nation far surpassed the same month in any previous year, and the last week at this port shows a gain of $1,141,018 in exports, but a decrease of $3,877,874 in imports as compared with 1905.

Current hides are of prior quality and in light demand, which makes prices nominally lower, although it is chiefly a matter of seasonable deterioration.

Failures this week were 218 in the United States against 252 last year and 18 in Canada as compared with 29 a year ago.

PLATTE RIVER RECEDING

FREMONT, Neb., Feb. 23.—The Platte river, which last night overflowed a large stretch of country on account of the ice gorges, is receding, although a rise in the Loup river may cause a continuance of the danger. Several small bridges have been washed away.

Baby Mine

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. **Mother's Friend** is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of **Mother's Friend.** "It is worth its weight in gold," says many who have used it. $1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to BRADFIELD REGULATOR CO., Atlanta, Ga.

MARKET SHRINKS STILL FURTHER

AGGREGATE DEALINGS ON NEW YORK EXCHANGE FALL TO LOWEST LEVEL IN MANY MONTHS.

NEW YORK, Feb. 23.—Today's stock market does not offer much subject for comment. The shrinkage in the volume of business and the narrowing of the limits of the market movements were surprising. The aggregate dealings for the day fell to a lower level than has been recorded for many months past. How far this was due to the small remnant of the week left after yesterday's holiday must be purely a matter for conjecture. That it was an influence on the fulness is very probable as professional operators are notoriously disinclined to offer upon large commitments without interruption of trading activity in prospect. But there is ground for believing also that the general speculative situation is exerting a growing effect of restriction on stock market activity.

The high opening in the market was due to sympathy with the London market which had advanced American, while New York was taking a holiday yesterday. The successful completion of a stock exchange settlement without serious damage was one of these. A somewhat more hopeful feeling over the Moroccan conference was another. A further possible influence was the cabling of orders from New York yesterday, which might be sharply effective on prices in London owing to a small floating supply of American securities there. A contributing factor in the sagging of prices in the New York market was the small offerings of stocks necessary to effect it. Some influence in this result is attributable to the report of the insurance investigating committee. Some of the recommendations of the committee regarding securities to be held by insurance companies, while not threatening any immediate results in the stock market, promise the ultimate necessity of marketing very large holdings. Some restriction is likely also upon the future activity of insurance companies in financial measures which have been fostering effect on the stock market affairs in the past.

The adoption by the house at Washington of the resolution of inquiry into coal land holdings by railroad companies kept alive the sense of vigilant guardianship of corporation affairs on the part of legislative authorities. A similar influence was produced by the fixing of an 80-cent gas rate for New York city by the New York State Gas commission.

The usual preliminary estimates of the currency movement for the week are brought down only to Wednesday evening on account of yesterday's holiday. The loss to the subtreasury of $1,413,000 seems to have been overbalanced by about a million dollars by the receipts of the banks from the interior, notwithstanding the movement of interior exchanges against New York during the week. There remained an indicated loss by the banks on last week's movement of $2,500,000 which may be expected therefore to affect tomorrow's statement. As bearing on the loan item, some large bond transactions have occurred this week which would indicate requirements for credits.

The gradual sagging tendency of the market extended into the last half hour at which time low prices of the day were generally touched. Between that time and closing of the market, there was an abrupt recovery which restored prices of a number of the prominent active stocks to the highest level of the day and made the closing firm. This late buying movement was unexplained by any news development.

Bonds were irregular. Total sales, par value, $1,980,000.

United States bonds were all unchanged on call.

FRIGHTFULLY BURNED.

Chas. W. Moore, a machinist, of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklin's Arnica Salve with the usual result: "A quick and perfect cure." Greatest healer on earth for Burns, Wounds, Sores, Eczema and Piles. 25c at the Holley-Arcularius Drug Co.

Boys' overcoats half price at Robbins.

INFLUENCES ARE MOSTLY BEARISH

NEWS FROM ABROAD AFFECTS MARKET—WHEAT WEAK AT OPENING—CORN SHOWS A GAIN.

CHICAGO, Feb. 23.—The wheat market at the opening was decidedly weak, initial quotations on May were off ½c to ¾@⅞c at 82½@¾ to 82. The chief bearish influences came from abroad, Argentina weather conditions together with statistics telling of additional gains in India and giving a total estimate of the total wheat crop of Australia which showed an increase over figures previously given. Shipments from Argentina for the week were reported to be a trifle larger than for the corresponding time one year ago. The domestic situation also was favorable in the main, the mild weather throughout the entire wheat section of the United States being conducive to future. During the first half hour there was apparently little demand and prices made further concessions from the opening decline. In May the lowest point of the day was reached at 81½@¾. At this point shorts bought freely and the demand created by them caused moderate buying by jobbing traders. This market gradually became firmer and closing prices were almost at the highest point of the day. After touching 82⅝, May closed firm at 81½@¾.

Reports of damage to corn in crib by damp weather caused free covering by shorts and resulted in a firm close in the corn market. Early in the day sentiment was bearish because of lower cables and the decline in wheat. An advance of ½c in the price of corn stimulated the demand for future deliveries. May opened ¼@½ at 42½@¾, sold up to 43⅝@¾ and closed at 43.

The weakness of wheat and corn had little effect on the oats market, there being a good demand throughout the day from leading longs. A report from New York that charters had been made there today for exporting 400,000 bushels to France was the chief bullish influence. The close was firm with prices at almost the highest point. May opened a shade to ⅛ lower at 29⅝@¾, sold up to 30¼@¼ and closed at 30¼.

Provisions were firm for the greater part of the day. Profit taking caused by the break in wheat and corn caused an easier tone early in the day, but the market soon recovered on buying by local packers and an advance of 5c to 10c in the price of live hogs. At the close May pork was up 2½c at $15.82½. Lard was up 5c at $7.77½@$7.80. Ribs were 2½@5c higher at 8¾.

LEGAL NOTICES.

NOTICE OF ANNUAL MEETING.
Colorado Springs, Colo., February 10, 1906.
Notice is hereby given that the annual meeting of the stockholders of The El Paso Consolidated Gold Mining company will be held at the office of the company, suite 401 Mining Exchange building, Colorado Springs, Colo., on Monday, March 5, A. D. 1906, at 2:30 o'clock p. m., for the purpose of electing directors for the ensuing year, and such other and further business as may properly come before said meeting.
The books for the transfer of stock will close on Thursday, March 8, 1906, and reopen on Monday, March 12, 1906.
S. S. BERNARD,
President.
J. M. JORDAN, Secretary.

The Annual Meeting of the stockholders of the Animas Power and Water company will be held on Tuesday, the sixth day of March, A. D. 1906, at 12 o'clock noon, of said day, at the principal office of said company, in the Giddings building, in the city of Colorado Springs, in the county of El Paso, in the state of Colorado, for the purpose of electing a board of directors of said company and for receiving and acting on reports of officers of said company, and considering and acting on all or any of the acts or proceedings of the board of directors of said company, and for the further purposes of transacting such other business as may properly come before said meeting, including the reading of call, or notice, of the meeting, filling vacancies, if any, in the office of inspectors of election, calling roll of stockholders, receiving report of inspectors of election as to presence of qualified voters, reading minutes of last meeting of stockholders, and election of inspectors of election.
HENRY JAMESON, President.
PAUL H. WHITE, Secretary.

BONDS FOR SALE

City of Colorado Springs, Colorado, $200,000 of 4 per cent Refunding Bonds.
Colorado Springs, Colo., Feb. 23, 1906.
Sealed proposals will be received until 7:30 p. m. of Monday, March 12, 1906, by the city clerk of Colorado Springs for the purchase of $150,000 of 4 per cent water refunding bonds.
Bonds will bear such date as may be determined in the ordinance adopting the form of bond.
Bonds will be in denominations of $1,000 each and shall become due and payable in 30 years from date of issue, optional after 10 years. Interest payable semi-annually.
Principal and interest payable in gold coin of the United States at the office of the treasurer of the city of Colorado Springs, or at the chemical national bank of New York city, at the option of the legal holders thereof.
Certified check for 3 per cent of the amount of the bonds must accompany each proposal.
The right to reject any and all bids is reserved.
By order of the city council.
K. M. MACMILLAN, City clerk.

Colorado Springs, Colo., Feb. 23, 1906.
The annual meeting of the stockholders of the El Paso ice and coal company will be held at the office of the company, No. 29 North Tejon street, Colorado Springs, Colorado, on Monday, March 5th, 1906, at 12 o'clock noon, for the election of the directors for the ensuing year, and the transaction of such other business as may properly come before the meeting.
The books for the transfer of stock will close at noon, March 3rd, 1906, and reopen two days after the final adjournment of said meeting. M. E. LEWIS, Secretary.

Precipitation in inches	0

City Briefs

Satisfied people are a boy's spaniel.

FINELY furnished rooms at Y. M. C. A.

FINAL PAPERS—Hugo Esch, a veteran of the Civil war, was granted final naturalization papers by Judge Robert Kerr in the county court yesterday.

LARCENY—Joe Rivers was arrested yesterday upon a warrant issued by Justice Ruby charging him with stealing a mule whip belonging to Henry Ott. The case was set for trial today.

EVANGELIST—Charles Stalker, the Quaker evangelist, will conduct the services at the Second Congregational tomorrow evening and will speak on "The Silent World, or a Thousand Millions Without Christ." Mr. Stalker has spoken on religious subjects on every continent, having been around the world twice.

DIVINE HEALING—Dr. Yoakum of Los Angeles, who has been conducting divine healing services during the week, will give his experiences at the Temple theater Sunday afternoon at 2:30 o'clock. Dr. Yoakum says that he was cured by divine healing after being given up by 32 physicians as incurable. He especially invites physicians and sick people to attend the service which will be open to the public.

TEACHERS—Continuing his series of sermons on "Occupations of Life" the Rev. Edgar W. Work, pastor the First Presbyterian church, will preach Sunday evening on the "School Teacher, the Art of Teaching, and the Contribution of the Teacher to the Welfare of the People."

LICENSES GRANTED—License to marry was granted by the county clerk yesterday to Lemuel Linder, aged 45, and Miss Malinda E. Murphy, aged 17, the consent of the mother, Phebe J. Murphy, being signed to the application. Both are residents of this city. License was also granted to Fred T. Baker, of Parma, Idaho, and Miss Emma Roesgen of Colorado City.

A NIGHT ALARM.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Manhattan, Kas., says: "My three year old girl had a severe case of croup, the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Foley's Honey and Tar is best for croup and whooping cough, contains no opiates and cures quickly. Careful mothers keep it in the house. Refuse substitutes. For sale by the Hefley-Arcularius Drug Co.

SHOES AND RUBBERS.

"Another Cup, Please"

That's the thought that comes to you as you finish a cup of our specially blended coffee. It is the kind that has that exquisite aroma, uniform full strength, beautiful color, and bracing, tone-giving quality in every drop. Besides, a small amount of this goes further than a lot of the ordinary kind. Prove it by trying it.

W. N. BURGESS

Tastes Differ

In watches as in everything else.

Some people prefer a Waltham to an Elgin.

Some prefer an Elgin to a Waltham.

Others prefer a Hamilton to either.

And so, it goes.

There is only one thing to do in a case like that—carry a very complete assortment of the various makes in the standard sizes and that we do.

Consequently we can submit for your consideration a greater variety of dependable timekeepers than can any other jeweler in Colorado Springs.

R. ARDREY,
Optical Jeweler.

DO YOU accept tainted meat from your butcher, or sanded sugar from your grocer, or sour milk from your dairyman? You can readily detect an inferior article of food, but how about your drugs? Are you perfectly sure you are getting the best in your prescriptions?

Purity, Accuracy and Dispatch has always been our motto.

That's why we are filling so many prescriptions.
